

## BRILLIANT GATHERING SEES "GYPSY PRINCE"

Musical Comedy Presented By Junior League Chorus—To Repeat Program Tonight.

With "The Gypsy Prince," a musical comedy in three acts, as the major attraction, and a general dancing to wind up the evening, the entertainment given at Rauscher's last evening by the Junior League was a huge success and was attended by a brilliant gathering of society folk. The program will be repeated this evening.

The book of the operetta, which is from the pen of Elizabeth Noyes Thompson, presents a melodramatic story with a consecutiveness which would put most musical comedy plots to shame, and the brightest and most tuneful lyrics of recent professional successes have been skillfully worked into the plot together with not a few perennial favorites such as "The Gypsy Trail" and "Gumbo On My Little Gypsy Sweetheart."

**A Delightful Plot.**  
The plot shows Abrogonia, Syrville, and Cerobia as neighboring countries. Abrogonia, a military power, plans to invade prosperous little Syrville, which has only a small army. The Prince of Syrville, learning that the influence of the Princess Celia is the only thing which prevents her father, the King of Cerobia, from going to the assistance of Syrville, determines to kidnap the princess.

Disguised as a gypsy prince, he has Celia brought to a camp in the nearby mountains, where he detains her until the alliance between Syrville and Cerobia is perfected and the invading Abrogonian army goes down to defeat.

When the princess returns to her father and finds in the prince of Syrville the gypsy prince who has learned to love, inevitable happy ending is assured.

Historically the honors went to Newbold Noyes, who handled the role of Prince Jean of Syrville with ease and distinction. He made a soldierly figure, his loveliness was convincing, and he displayed a fine baritone voice. Moreover, the charm of his speaking voice contributed no little to the success of his role.

Miss Lillian Hendrick, as Princess Celia, with a soprano voice of excellent quality and range, was called upon for numerous encores. She played her part most capably and made a ravishing picture. Her two maids of honor, Miss Evelyn Gleaves and Miss Beatrice Clover, were distinctly ornamental, and danced and sang charmingly.

**Admiring Most Original.**  
John H. Cunningham, as the King of Cerobia; Miss Juliet Crosby, as Juliet, the head maid, and Sylvanus Stokes, as Sylvanus, the head valet, in other leading parts, met with much favor.

For the rest, there were moments which brought to mind the old song, "Never Mind Singing, Just Dance, My Dear," and certainly the dancing was the most original and interesting feature of the program. Many attractive diversions were seen, and the Junior League chorus, under the direction of Miss Lillian Hendrick, and Miss Beatrice Clover, were distinctly ornamental, and danced and sang charmingly.

**Notable in the Cast.**  
Notable in the cast were Baroness Lily von Winkler, Miss Lillian Hendrick, Miss Beatrice Clover, Miss Evelyn Gleaves, Miss Georgia Schofield, Miss Margaret Douglas, Miss Pauline Stone, Miss Marjorie Russ, Miss Laurie Smith, Miss Catherine Pace, Miss Louise Barker, Miss Margaret Howard, Miss Dorothy Deebie, Miss Katherine Burdette, Miss Marie Sims, Miss Margaret Fahnstock, Miss Mildred Anderson, Miss Fochonius Butler, Miss Grace Overman, Miss Ruth Larner, Miss Dorothy Deebie, Miss Frances Carpenter, Miss Leslie Carpenter, Miss Margaret Larner, Miss Dorothy Denys, Miss Katherine Speer, Miss Lemira Gillett Hill, Miss Louise Clark, Mrs. Newbold Noyes, Miss Emily Chase, Miss Catherine Hill, Lawrence Baker, John W. Thompson, Marlyn Brown, William E. Davis, John J. Cunningham, Ross Thompson, Wilson Haywood, Thomas W. Edwight, G. Merritt MacWhorter, Elwood Smith, Chester Lockwood, John Bulkeley, Harry Lee Rust, Jr., James Karriek, Pittman Springs, William Faust, William Hill, Richard Chew, Ross Thompson, Joe X. Burgess, Lowndes Lavender, Manning Stead, and William Haywood. The play was produced under the direction of J. Wilder Tomlinson.

**Marines Defy World With Marching Song**  
The United States Marine Corps is unique in all branches of the American services in having a distinctive marching song that is as "swinging" and catchy as many of the foreign marching songs.

True, West Point has its Benny Havana song, and the Seventh Cavalry marches to the inspiring tune of "Garry Owen," but "The Halls of Montezuma" is sung by all who wear the marine's uniform. One verse of the song—a favorite one—runs:

Our flag's unfurled to every breeze,  
From dawn to setting sun,  
We have fought in every clime and place  
Where we could take a gun;  
In the snow of far off northern lands,

## Moran Urges Strike For Ballot Here

Head of Chamber of Commerce Tells Citizens Congress Is Tired of Running District.

Declaring that Congress had reached a stage of exhausted patience, in handling the affairs of the District, P. T. Moran, president of the Chamber of Commerce, in an address at the annual banquet of the West End Citizens' Association, at the Hotel Powhatan, last night, urged citizens of the District to strike for the ballot.

Mr. Moran said he believed Congress would be only too glad to grant home rule to the residents of the District, if they demanded it in the proper manner. "Congress," he said, "is tired of running the District."

Mr. Moran made a spirited appeal for action looking toward local suffrage. Chief Justice Livingston of the District Supreme Court, and Senator Pomeroy of Ohio, following Mr. Moran, advocated the cause.

**This Englishman Never Heard of the Big War**  
NEW YORK, March 7.—It may be possible that when Gabriel blows his trumpet and the heavens are rolled up like a scroll on the Day of Judgment, there will be one man who will urge as an excuse for his unpreparedness that he hadn't read the papers and news of Gabriel.

When Charles Camm, of Egham, a village of county of Surrey, England, on the south side of the Thames, three miles below Windsor, was fined at Slough for keeping homing pigeons without a permit, he urged that he "knew nothing about the war or war regulations, as he could not read or write."

**Martine Withdraws.**  
Senator Martine today announced that, in view of his Senatorial candidacy, he would not run for delegate-at-large to the Democratic national convention. He urged the renomination of President Wilson.

## DEVIL CHASING IS EVANGELIST'S TOPIC

Billy Sunday Catalogues and Excoriates Every Form For Baltimoreans.

HALTIMORE, March 7.—Billy told a tabernacle audience in no stinted phrase why "church folk of today can't cast the devil out." He preached on "Casting Out Devils" and he catalogued, in dexter and exoriated every sort of "devil" he could mention.

His sermon this afternoon was one of the strongest and most blistering discourses on one of the evangelist's favorite topics.

This morning, in preparation for a week of his most arduous labor during the Baltimore campaign, that of getting the trail hitting started, he rested completely.

Yesterday, though there were no tabernacle services, Sunday had a strenuous time of it, going by automobile, through snow and hail to Frederick. But he got safely through the trip without a speech.

A special rehearsal of the choir was held at the tabernacle last evening by Herbert Smock. The choir went through the hymns that will be used most during the trail hitting.

**For Bail Hitting.**  
All departments of the work are going full blast this week. The shop meetings, the business district noon day meetings, the luncheon talks for women, and the meetings in schools and colleges.

This evening there will be a delegation of about 2,000 girls and women from the office buildings and other business and industrial places in the central part of the city, under Miss Frances E. Miller, Mrs. Carl R. Gray, and Miss Lucy H. Dawson. It may be that trail-hitters will be called for at the night service, as all is in readiness, but that depends entirely on Mr. Sunday, and he never tells beforehand.

The noon factory meetings for men began today, under the Rev. Isaac Ward, the Rev. H. P. Jackson, and J. A. Addison.

**For Boys and Girls.**  
The boys' and girls' meetings, under Miss Alice Gamlin, will also begin. The School Board has refused to furnish lists of the names and addresses of the students of the schools to the Sunday party for this work, but permission has been granted to distribute dogtags of the meetings on the school steps and grounds.

Wondering comments were heard on every side yesterday on the tremendous crowds which were packed into the Tabernacle at the three services on Sunday and the crowds which were turned away. Mr. Sunday said it was the biggest he had ever had in his life, and was bowled by the enthusiasm over it. Many of the Sunday committee said it was the greatest crowd ever assembled in one day for religious or any purpose at one spot.

is to continue for five years. At the end of that period the rate on buildings will approximately be one-half the rate on land values.

**May Forecast Weather**  
Three Weeks in Advance  
Accurate weather forecasts, two and three weeks in advance, are possible as a result of the meteorological discoveries of W. F. Carothers of Houston, Texas, according to an announcement from Prof. Willis Moore, professor of meteorology at George Washington University and former chief of the weather bureau.

Prof. Carothers in the director of Carothers private observatory at Houston.

Prof. Moore declares the discovery is the most important advance in science since Franklin discovered electricity.

The new theory is based on the idea that all weather conditions are due to variations in solar intensity or solar pulsations.

**Explains Pittsburgh Tax Plan to Single Taxers**  
WILLIAM H. HARRIS, a Pittsburgh attorney, explained the Pittsburgh tax plan at a meeting of the Woman's Single Tax Club in the Public Library last night. Congressman Bailey of Pennsylvania has introduced a bill in Congress for the adoption of the Pittsburgh plan in the District of Columbia.

Mr. McNair said under the Pittsburgh plan, which is a single tax on land values, the rate of taxation on the land would be increased 10 per cent a year, and the rate on buildings would be reduced 10 per cent a year.

**Take Iron, Says Doctor, if You Want Plenty of "Stay There" Strength Like an Athlete!**  
I have seen dozens of nervous, "undone" people who were all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron of you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron.

**Ordinary Nuxated Iron Will Make Delicate Nervous Run-down People 200% Stronger in Two Weeks.**  
Time, in Many Cases.  
NEW YORK, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. Sauer, a specialist of this city, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver, or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again, and see for yourself how much you have gained.

**On the Remington and Nowhere Else**  
Here are two facts about the Remington which every typewriter buyer should know:

1. The Remington Column Selector adds 25 per cent. to the letter writing speed of the typist. This is not a claim or an estimate. It is a definite fact—proved and established by any number of comparative tests.

2. The Column Selector is a Remington feature exclusively. No other machine has it—or anything like it.

Oh, yes, other machines have devices which look like it, with the five keys, etc. It is easy for a salesman, who knows the supreme merit of this Remington feature, to call them "column selector" keys. But there is no other device on any other typewriter which can do what the Remington Column Selector does.

The Remington Column Selector is the only feature on any typewriter which permits instantaneous setting of the carriage at any desired point on the line.

It is the only feature which provides this setting by either forward or backward movement.

It is the only feature which provides true "express service" with no stop-to-stop movement in reaching any writing point.

And these are the features which make the 25 per cent. speed gain.

Let us show you the real and only Column Selector—on the Model 10 Remington.

## To Celebrate Phone Marvels at Banquet

National Geographic Society to Give Notable Dinner at Willard Tonight.

The actual accomplishment of long-distance telephony will be celebrated tonight by the National Geographic Society with a banquet for 1,000 guests at the Willard, when telephone connections will be made for each guest with Florida, California, Washington, and intervening points.

The guest of honor will be Alexander Graham Bell, the inventor of the telephone, and with him at the special guest table will be Theodore N. Vail, John J. Carty, and U. M. Bethell, of the American Telephone and Telegraph Company, who have put through the transcontinental telephone lines.

The dinner was planned several months ago by the National Geographic Society, and is to be one of the most important scientific as well as social gatherings of the year. The preparations for the dinner have been in progress several days, the decorations and the electrical connections necessary being rather elaborate.

C. H. Fittman will preside, and Secretary of the Interior Franklin K. Lane will act as toastmaster.

**J. F. Little to Read Paper Before Georgians Tonight**  
"Footprints of Georgians at the Capital" is the subject of a paper which will be read by John F. Little at a meeting of the Georgia Society at the Raleigh tonight.

W. J. Harris, of the Federal Trade Commission, president of the society, will be in the chair. Col. W. T. Roberts, attorney for the trade commission, will speak, and Horace L. Atkinson will talk on "Sidney Lanier." A musical program will be presented.
